

DAM STEELPOWER® RED G2 SPIDATOR

The SteelPower® Red G2 Spidator offers every sea angler who prefers active angling the perfect rod. With the 2,70m Spidator the angler can cast shads and jigs light lead fish easily. The 2,85m version is, thanks to its length and backbone, ideal to fish for larger and stronger predators, like seabass. The last and longest model

in this series is 3,10m long and possesses a casting weight of 15-75gr and is an ideal tool for casting extreme distances, for instance seatrout, seabass or even sea small cod. The semi parabolic action of the Spidators allows anglers to cast lures far away and and, still, enjoy fighting big fish at close range.

Model	Barcode	Name	Length	Tip Length	Weight	Power	Cast Weight	Reels	Line
2146 270	[Barcode]	STEELPOWER RED G2 SPIDATOR / 270	1/1/10	2,70m	140cm	30-100g	2	245g	6+1

DAM STEELPOWER® G2 RED SHAD & PILK

Great light pilk rods with a stiff backbone and responsive tip that are ideal for fishing the "Ostsee". The light blank has been designed

for playing shads and lead fish at great distances as well as offering enough reserve to fight big fish.

DAM STEELPOWER® RED G2 BALTIC PILK

These rods have the casting weight and the lengths that most people that are fishing in the Baltic sea are using nowadays. Great

allrounders that offers you both the power you need as well as the fun you desire!

DAM STEELPOWER® RED G2 EXTREME PILK

The Extreme Pilk rods have been made for the heavy stuff! They can handle big fish from the deep with ease, and you will have no

problems working big and heavy lures at great depth.
