

SUMO GT4

DAM SUMO® GT4

The Sumo® GT4 series is designed for the demanding coarse angler. For this rod series we have only applied the highest quality raw materials and components; and it shows! All rods in this series have eye-catching cork grips and bright red trimming

details. There is a rod model for every type of coarse angling method or fish, such as bream, roach and tench. From a light and short winkle picker rod to powerful feeder rods capable of launching the heaviest feeders, they're all there!

TECHNICAL DETAILS

- Super lightweight TC30 GT4 Carbon Structure
- Ergonomically shaped, top-grade full cork handle
- Functional hard-EVA parts on some of the handles
- Durable reelseat with stainless steel hoods
- Slim inlay, braid resistant SiC guides
- Non-flicker matt finish on the metal parts
- UV-protection, hard-varnish blank finish
