STEELPOWER

DAM STEELPOWER® RED G2

The last couple of years our SteelPower® Red series has established quite a name. They are well known among and appreciated by sea anglers all over Europe. This year we revamped them completely, with the state of the art components. The new SteelPower® Red G2 rods not only look better (more modern) but also perform better!

All SteelPower® Red G2 rods equipped with a gimbal are delivered with a matching EVA protection cap.

The oval guides on the Boat, Light Boat and Natur rods provide maximum strength and durability.

DAM STEELPOWER® G2 RED BOAT

We have decided to rework this rod series by changing transport lengths and sectioning. Both the 2,25m two-piece and the 2,40m four-piece versions now have the connection at the top of the handle. All four-piece rods are delivered in a Cordura-tube, for easy transport and travelling!

Model	Barcode	Name	Length	Sectioning	Tip Length	Weight	Pieces	Blank Weight	Action
2559 020		STEELPOWER RED G2 BOAT / 20LB	1/1/10	2,40m	70cm	20lb	4	507g	8+1
2559 030		STEELPOWER RED G2 BOAT / 30LB	1/1/10	2,40m	70cm	30lb	4	533g	8+1
2559 050		STEELPOWER RED G2 BOAT / 50LB	1/1/10	2,40m	70cm	50lb	4	586g	8+1
