STEELPOWER® RED G2 INLINER 2,10M

Nice and short inliner rods, with enormous power, suitable for baits up to 700g (the 30lb version) and even 1000g (the 50lb version). Great for fishing the deep waters around Norway!

STEELPOWER® RED G2 INLINER 2,60M

Fantastic inline pilk rod with a smart length, meaning that it is suitable for both small and the big boats. Great allrounder with which the angler can fish for virtually anything in the salty waters around him.

STEELPOWER® RED G2 INLINER "DOWNRIGGER"

Slightly longer than standard Inliners, for better handling during trolling. Target fish: seatrout, salmon and many others.

2664 210		STEELPOWER RED G2 INLINER / 210 / 30LB	1/1/10	2,10m	96cm	30lb	2	362g	1+1

STEELPOWER® RED G2 LIGHT BOAT POWER TIP

Making good things even better – that's our permanent target! With the SteelPower® Red G2 Light Boat Power Tip rods we have achieved this by using a new kind of "power tip", made of solid fibreglass, which is directly connected to the carbon blank! This

resulted in a higher sensibility as well as stability which, altogether, upgraded the complete functionality of this rod to a completely new level.
