

QUICK RELEASE LANDING NET

The Quick Release Landing Net is by far the easiest and fastest carp landing net on the market. It combines a stainless steel spring loaded spread block, which makes it possible to put the mesh arm connectors in parallel positions - and then thanks to the reinforced Quick Release connection you can put in place the net head in a blink of an eye. Vice versa procedure to remove the mesh: it has never been so easy and fast to take apart the net head and to safely place your catch on the unhooking mat.

The Quick Release Landing Net is available in two versions: 42' mesh with 180cm one section handle, and one dedicated version for our C.O.M. concept with 32' mesh and 180cm two section carbon handle.

- Full carbon handle
- Full carbon mesh arms
- Fast dry mesh
- Reinforced Quick Release connections for the net head
- Virtually indestructible nylon spread block

ITEM NO.	DESCRIPTION
