## QUICK® GROUNDER RD

Rear drag spinning reel with an oversized rotor, a big shallow spool and an exceptionally high gear ratio of 7,2:1. That combination resulted in an extremely fast line retrieve. That is exactly what makes this reel ideal for method feeder fishing, which requires a lot of distance casting and reeling in. The colours also match the colours of our SUMO® GT4 method feeder rods, allowing you to make the perfect combination.

## TECHNICAL DETAILS

- 4 stainless steel ball bearings
- 1 instant anti-reverse® needle bearing
- Graphite body and rotor
- Computer-balanced Anti-Vibro-System rotor
- Aluminium spool
- Aluminium spare spool
- S-curve oscillation system (Pat. DE4035846)
- Micro-adjustable rear drag
- Multi disc drag system
- Anti-Twist line roller
- 4mm stainless steel main shaft
- Zinc alloy pinion gear
- Hard EVA handle knob
- Zinc alloy diecasted handle
- Drag force: 22lb
- Line retrieve: 130cm

3000 RD: 130 cm
