

CARBOLITE THROWING STICKS

Ultra-light boilie throwing sticks made using two different carbons in order to provide unrivalled strength and lightness. The core of the CARBOLITE THROWING STICKS is made using an ultra-thin layer of 100% High modulus carbon, which is wrapped in a second step in 3K woven carbon. Probably the best throwing stick on the market today, with a super competitive price compared to any other similar products.

- Casts up to 120m
- Supplied with a deluxe hard case
