MAD® D-FENDER 3-ROD HOLDALL

A rod holdall for 12 feet rods that is made of thick and robust 600D nylon (100%) material and equipped with a protective layer of padding to keep your rods safe. It offers room to three fully mounted

carp rods and some spare ones. The two outerpockets offer extra room for umbrellas, banksticks etc.

MAD® ROD SLEEVE WITH REEL COMPARTMENT

The MAD® rod sleeves are designed to transport fully mounted rods with reels safe and secure from and to your favorite fishing spot. The rod sleeves offer complete protection and have a large

reel pouch to protect your reel as well. Available for 9, 10, 11, 12, and 13 ft rods! 100% polyester.

MAD® ROD TIP PROTECTOR

Rods are always very vulnerable, especially the tips. There is nothing more annoying than a broken rod tip because of a small accident during transport. We found the perfect solution for that: the MAD® Rod Tip Protector. After you've taken apart a two-piece rod, put the sections next to each other and simply slide the protector over the tip and butt section. The protector is padded and can be closed by Velcro tape.

MAD® NEOPRENE ROD STRAP SET

A great set of high quality neoprene rod straps for secure transportation of your favourite rods. The wide version of the two is extremely handy for protecting the blank of the rods against the damaging impact of carp leads. The robust neoprene material is finished with a special jersey coating and the Velcro edges are equipped with a rubber MAD® patch for good grip.
