

DAM SAFETY BOAT SUIT

- Two-piece floatation suit conforming to the CE & International ISO 12402-5 Standards
- Extraordinary life preservation apparel
- Exemplary integrated buoyancy
- 20% lighter than old Boat Suit model
- Heavy-duty 300D polyester Oxford shell fabric with 100% waterproofness of more than 10.000mm
- Soft 210T taffeta polyester lining
- Superb storm proof protection against wind and rain
- Inner neoprene cuffs with outer Velcro® adjustable wrist strap
- Face enclosure and waist belt
- Detachable hood
- Adjustable crotch straps to prevent the jacket from riding up
- "Angler Cut" allows unrestricted freedom of movement
- Low density foam interlining giving unrivalled thermal protection
- Double fold-over expandable pockets
- Fleece lined handwarmer pockets
- Safety whistle
- Heavy-duty 2-way main zip
- Lever lock adjustable shoulder straps
- Heavy duty 2-way main zip
- Zippered, expandable ankle enclosures

Attention: The DAM Safety Boat Suit is not a life jacket, but just a buoyant swim support with insulating features! Therefore it's only suitable for swimmers! It reduces the risk of cooling out and drowning! It guarantees no rescue!
